
Town Hall Meeting

Our schools are in crisis from years of budget cuts. So why are Mayor Rahm Emanuel and the billionaires on the Board of Education blaming teachers for our schools' problems? How dare they threaten to bankrupt our public schools with more spending on charters and magnets, then say there is no money for smaller classes or a full curriculum! If the city can find $5 million in TIF funds to build another Hyatt Hotel to benefit Board Member Penny Pritzker, why can't they find the money for a nurse in every school?

Join the **Chicago Teachers Solidarity Campaign** for a discussion about the fight for a fully funded education! The meeting will feature a panel of parents, students, teachers, and community members, along with resources and information for how to start organizing in your neighborhood. Speakers will include:

- **Father José Landaverde**
- **Jitu Brown (KOCO)**
- **Erica Clark (Parents4Teachers)**
- **Mack Julion (Letter Carriers Union)**
- **And special guests from the Chicago Teachers Union!**

Teachers and families need to stand together and fight for the fully funded schools that <u>all</u> our kids deserve!
